

# University Transfer Guide 2022 - 2023

## UBC Bachelor of Science: Microbiology and Immunology

The following information is a summary of the transfer and program requirements from the university website. For more detailed information such as additional courses, GPA requirements etc., please consult with one of our academic advisors.

To apply to UBC as a transfer student, you are strongly encouraged to have **24 transferable credits completed by May**. Having more than 24 credits applicable to your intended program may increase your likelihood of admission. <https://you.ubc.ca/applying-ubc/requirements/university-college-transfer/>

### The following information is from UBC website:

Admission to the Major or Minor is not automatic and must be approved by the Department.

- Any transfer applicant who did not take Chemistry 11 or Physics 11 or acceptable equivalent from outside of BC must have taken transferable first-year courses as a replacement.
- If you have **more than 48 credits**, you **MUST** be eligible for Year 2 standing; you need at least 24 credits which includes a minimum of 15 first-year (100 level) science credits
- If you're waiting for an outcome regarding your UBC application, you still need to apply to the UBC Science Second Year Application. **You must complete all departmental and faculty requirements** for any specialization to which you apply.
- Successfully complete **six credits of post-secondary first-year English studies** at a recognized university in an English-speaking country. For more information, please check UBC [English Language Admission Standard](#)
