University Transfer Guide 2025 - 2026

KPU Faculty of Science: Health Science

The following information is a summary of the transfer and program requirements from transfer pathway between Alexander College and KPU. For more detailed information such as additional courses, GPA requirements etc., please consult with one of our academic advisors.

The following information is from the block transfer agreement

- Students transferring into third year of KPU's BSc Major in Health Science must complete 50% of all 35 courses at KPU, which allows for 17 transfer courses at first and second year.
- AC transfer students would complete KPU's BIOL 2320 (4) – Genetics and HSCI 2220 (3) – Medical Terminology after transferring to KPU.
- Pending course-to-course transfer in the *BC Transfer Guide*, elective options are likely diverse.
- Subject to GPA, the table shows how Alexander College's Associate of Science graduates could receive credit for the maximum 17 courses while fulfilling most of KPU's first- and second-year course requirements.

University Transfer Guide 2025 - 2026

UVic Faculty of Engineering and Computer Science: Computer Science

The following information is a summary of the transfer and program requirements from the university website. For more detailed information such as additional courses, GPA requirements etc., please consult with one of our academic advisors.

Apply to the Faculty of Engineering and Computer Science as a high school student or a transfer student from another post-secondary institution. Meeting the minimum requirements does not guarantee an offer of admission.

The following information is from UVic website:

- [English Language Proficiency](#)
- Eight or more university-level courses with "C+" on the most recent 12 UVic units (equivalent to Alexander College 24 credits).
- Admission averages include all repeated and failed courses.
- The following post-secondary courses (or equivalents) are required:
 - **One of CSC 110 or CSC 111**
 - **One of CSC 115 or CSC 116**
 - **MATH 101**

University Transfer Guide 2025 - 2026

UBC Applied Science: Engineering

The following information is a summary of the transfer and program requirements from the university website. For more detailed information such as additional courses, GPA requirements etc., please consult with one of our academic advisors.

To be eligible for second year, you need at least 27 university transferable credits that count towards our first-year engineering program by the end of April. Students that do not meet this criterion will be considered for a modified first-year program.

<https://engineering.ubc.ca/admissions/undergraduate/transfers/post-secondary-transfer>

The following information is from UBC website:

Admission to the engineering program is competitive.

- Applicants must also have taken courses in **mathematics (calculus), chemistry and physics** which transfer to the first-year engineering program and **achieve an average of at least 70%** in each of these core subject areas. Courses to be considered in this average of mathematics, chemistry, and physics courses are not limited to the last 30 credits only.
- Math 221 or equivalent is required** for students wishing to enter the Departments of electrical and Computer Engineering or Mechanical Engineering
- Successfully complete **six credits of post-secondary first-year English studies** at a recognized university in an English-speaking country. For more information, please check UBC [English Language Admission Standard](https://science.ubc.ca/students/degree/transferapplicants)

UNBC Bachelor of Applied Science: Engineering (Civil and Environmental Engineering degree programs)

The following information is a summary of the transfer and program requirements from the university website. For more detailed information such as additional courses, GPA requirements etc., please consult with one of our academic advisors.

The following information is from UNBC's website:

- **English Language Proficiency:** A final grade of **75% (B) or better** in a university-transferable English course.
- The admission GPA for transfer students into the Environmental Engineering program is assessed on the following four courses or their university transferrable equivalents: **Math 12 or Pre-calculus 12, English 12, and two provincially examinable Science 12 courses**. To be considered for admission into the program, transfer students must have **at least a 75% average** based on these four courses or their equivalents.
- Have attempted **at least 15 credit hours of post-secondary transferrable coursework** from a recognized institution
- Have a **2.0 GPA from the most recent 30 credits** prior to transfer
- Transfer students must also have an overall Cumulative **transfer GPA of at least 2.00**, which is based on all their university transferrable coursework. Regardless of the articulated courses transferred, students must satisfy the residency requirement of a minimum of 90 credit hours.
- Priority admission is given to students who meet the admission criteria and apply by the deadline of March 1.

UVic Faculty of Engineering and Computer Science: Engineering

The following information is a summary of the transfer and program requirements from the university website. For more detailed information such as additional courses, GPA requirements etc., please consult with one of our academic advisors.

This transfer pathway is designed to assist Alexander College students to transfer to the second year of UVic's Bachelor of Engineering or Software Engineering programs. Students at Alexander College take most of the first year BEng/BSEng courses, except for those which are not available at Alexander College (ENGR 130, ENGR 112, ENGR 120, and ENGR 141) and meet other admission requirements may apply to begin their UVic Engineering program in second year.

The following information is from UVic website:

- [English Language Proficiency](#)
- Admission to second year of the Bachelor of engineering program requires completion of all courses listed below with a minimum **UVic GPA of "C+" (UVic 3.00 or ALEX 2.33)** and **no courses with grade less than "C."**
- **If accepted, transfer applicants will compete with UVic students for placement in their chosen program of Biomedical, Civil, Computer, Electrical, Mechanical, or Software Engineering.**
- **Upon admission, students are expected to work with a UVic Academic Advisor to plan the coming year, including courses and timing of their first work term.**

University Transfer Guide 2025 - 2026

University of Toronto: Faculty of Arts and Science - Psychology

The following information is from UofT website:

<https://www.artsci.utoronto.ca/future/ready-apply/admission-requirements/transfer-students>

Credit transfer to university is not guaranteed and must be approved by the Department.

Admission consideration for transfer students will be based on a combination of academic record from **post-secondary studies**, **cumulative grade point average (CGPA)**, **most recent annual grade point average**, results in **prerequisite courses**, **English proficiency** (if required) and academic performance in matriculation/high school, where applicable. Admission decisions are typically based on your CGPA, including final results for the current academic year, including second term. Conditional admission may be granted prior to the completion of the academic year **based on a strong and consistent academic record**, including **strong results in prerequisite courses**.

- A **minimum cumulative grade point average (CGPA) of 3.3 or a solid 'B+' average** is required.
- Program prerequisites must be met at the senior high school level, or two full college-level semesters of an academic subject may be considered to satisfy a prerequisite.
- Entry into all Psychology programs requires **Grade 12 Calculus and Grade 12 Biology** (we will also accept these two courses taken at the college and university-level). Please note that these two requirements will not be waived.
- This is a limited enrolment program. Note there are different options depending on whether a student has completed between 4.0 and 8.5 credits (8 to 17 courses), or 9.0 or more credits (18 courses).
- **English proficiency requirements:** The **minimum requirement is one year of full-time study** completed at a recognized university/college in a country where English is the dominant language. **At least four full-year transferable courses (8 courses) completed with a grade of "C" in each course** are required. Courses in progress will also be considered. A current, updated transcript is required.
- In past admission cycles, the average grade cut-off for the PSY Major program ranged from approximately **78-79%**.

Please check <https://www.bctransferguide.ca/> for specific transfer details.

Please note: Ensure you are using the most current version of this form. We are checking the requirements regularly, but the receiving university's transfer requirements can be changed anytime without notice. It is the student's responsibility to make sure to meet university's general admission requirements.
